Episode 7: GoT theories (Part 2)

J – Jennifer

C – Camila

C – ‘Cause now I really like Jamie!

J – We don’t want him to suffer anymore, right?

C – Yeah, kinda...

J – But he ...

C – No, but he deserves a little bit of ... like ... he has to know what Cer... who Cersei really is, like he knows! He’s the person that knows her the best but I think even him... like sometimes he doubts the things she could do.

J – Exactly! But now, how can you doubt, right?

C – Yeah, there’s no way! Like...

J – So, so now maybe the prophecy will come true, in a way or another.

C – Yeah, no. And everything is coming together. Like the... She lost her 3 kids, on the golden... I don’t remember the... what it was... was like a golden cloth, something like that.

J – Something like that, yeah.

C – And a younger queen coming... she thought it was Marjory, but we know now it wasn’t. And, that she would be killed by her younger brother. It was that, right?

J – Yeah, by family or something like this. But then, my crazy theory again, if she’s the sister of Daenerys, then Daenerys could kill her and Jamie wouldn’t have to.

C – True. Very complex, but true.

J – Yes, because, I mean... it would be then true twice, because yeah, the younger queen was taking her place and also was someone from her family killing her.

C – Yes, yeah, that would make sense.

J – Even Tyrion... yeah Tyrion is so far away and she would kill Tyrion first if she ever saw him again.

C – Yeah, for sure! No, but I know... I guess ... I don’t know, I have ... I have this feeling that Jamie would... will kill her. I don’t know, I think it would kinda close the cycle, you know.

J – Exactly! Yeah, but then again ... poor Jamie, what will be of him after that?

C – Yeah, like Kingslayer, Queensalyer... what else?

J – Mhm... And also his place, because he's a Lannister, and he's from the Kingsgard but then there's no King and no Queen and... so... what is he supposed to do? When and if he really kills Cersei. There's no place for him! In this new world. Because I really don't think Daenerys will accept him in her Gard

C – No, no yeah. And for sure the Starks won't either. Especially after everything he did.

J – So, I don't know. Because Brienne is with the Starks and then his only friend in this whole wild world is Brienne.

C – Yeah, and she pledged loyalty to the Starks.

J- Yes, and..

C – So...

J – And Tyrion, of course. But...

C – They're not the best of friends right now. Right..

J – Oh but c'mon! Jamie saved him!

C – Oh, no, yeah! Jamie saved him, right! Right, right, yeah.

J – He owes Jamie.

C – Yeah, no, for sure. He ... and he likes Jamie. Jamie is a nice person.

J – Jamie always tried to protect him.

C – Yeah always! Even when Tywin was alive and even when Jamie wasn't that good of a person ...

J – Exactly!

C – He always... yeah, true. He always defended Tyrion. So... Yeah, Tyrion will be by his side. And maybe he can convince Daenerys that Jamie is a good person.

J – Who knows..

C – Or at least ... yeah...

J – I guess, if he really kills Cersei then it would prove, right?

C – Yeah, for sure.

J – His loyalty's not within the family anymore, at least.

C – Yeah, Wouldn't be another... wouldn't be a bigger proof than that.

J – And talking about brother and sister... for me, the craziest theory that came out this year is the theory that Jon Snow has a twin sister! And the twin sister is Meera!

C – That for me was one of the craziest Game of Thrones theory that I've ever heard! Like, ever! And I've heard some crazy stuff. But this is so crazy! Because nobody ever thought of this. Like now we have all...

J – But someone of course did..

C – yeah , yeah, yeah but ... and now we have all this other data about the series, you know... that her father was ... with...

J – Ned?

C – Ned, yeah. For a second I forgot his name. Poor Ned! I loved him so much! He was such a great man!

J – He was!

C – But, so... he was with Ned at the time Jon was born. And this thing about having another baby in the story, thi... it's very crazy but, like we said before, it's Game of Thrones!

J – Exactly! And I mean, in the series it doesn't look like it, but in the books we know they are the same age. Jon and Meera.

C – Yeah, I didn't know that!

J – And if you remember, Meera and her brother, they loo...

C – They are every different!

J – Exactly!

C – On is blond, the other is... she is brunette. And she has dark eyes.

J – Curly hair...

C – Yeah...

J – Just like Jon Snow!

C – Yeah! No, but you know, they look very much alike, Meera and Jon...

J – Yes, they do...

C – Even the actors... maybe that wasn't a coincidence!

J – Well you know... If it... the story really is like that then it was not a coincidence! If the theory is true, then it was not a coincidence. But, it would be a WOW moment, really. If that theory is confirmed, it would be a game changer!

ON THE LAST EPISODE

www.onthelastepisode.com

C – Yeah!

J – In so many levels..

C – Definitely. Yeah. I can't even like, predict what would happen because, having 3 live Targaryens... like, if it was just Jon and Daenerys you could like: OK Jon, you stay up in the North and Daenerys take... like... be the queen of the south and the other kingdoms and stuff... but having 3... I don't know. I don't know how this dynamic would work, you know?

J – Me neither, really. Because, really. She, so far has never ever even showed that she would want power. She was just there with Bran because of her brother. And now her brother is dead.

C – And she wasn't even a ... Yeah, and she wasn't even like a main character when her brother was alive. It was like her brother and Bran. And she was just helping them out. And now... maybe becoming a Targaryen...

J – Yeah, crazy stuff... only in Game of Thrones...

C – If they survive right? Because they're on the other side of the wall.

J – Oh but, c'mon! We know Bran has to survive.

C – yeah, I know, yeah...

J – so, we know that at least Bran will survive and we also know that right now, Bran can only survive if she does too. Because otherwise he cannot get home!

C – yeah, true.

J – And also because the other... the guy ... The 3 eyed raven told him, he would never walk but he would fly!

C – Ohh, yeah! That' pretty cool.

J – We will have to wait and see what sort of wings he will have.

C – yeah.

J – Is it dragon wings?

C – Maybe!

J – Maybe...

C – maybe... that would be very cool!

J – there are too many cool for season 7 and I would love for all of them to come true. But it would make a very crazy season!

C – Which ones?

podcast@onthelastepisode.com

ON THE LAST EPISODE

www.onthelastepisode.com

J – All of... I mean if...

C – Oh, those... o yeah...

J – All those theories we are discussing today. If at least half of them came true ...

C – It would be crazy but...

J – It would!

C – so cool!

J – Like having an Ice dragon and/or Bran warging into one of those dragons..

C – yeah, so that wouldn't be that crazy!

J – And Meera ...

C – Those 2 wouldn't be that crazy!

J – It would not, but I mean... both cannot be true so... They would have to decide for one ...

C – Maybe... We don't know. Game of Thrones talking here!

J – Yes, yeah. You are right! You're right! Maybe Jon cannot connect to the dragons, so, well... Bran has to do it for him. Or Tyrion has some trouble with his dragon. Because unless it's Daeny's dragon that transforms into an ice dragon, Drogo, otherwise Daenerys already has a dragon for herself. So we only have... the other people only have to pick the other 2.

C – Yeah.

J – One already belongs to Daenerys. So what else is there... Oh, yes. So... also big theory, big question mark. How are the white walkers going to cross? Again, poor Bran! Everything is his fault!

C – yeah!

J – really, people love to say: It's Bran's fault! Everything right now is Bran's fault.

C – yeah, but kinda, it is!

J – Oh, but c'mon! Some of the theories like, that he is responsible for the Mad King going mad...

C – No, OK, no, no, no. That's crazy! That's crazy talk! No, at least for me. For me, that's crazy talk. I don't think that. I don't think that at all. But I really do think that he will be responsible for the white walkers crossing the Wall. Especially because now he has the mark. And we saw in the cave...

J – and it makes all the sense in the world. Exactly!

podcast@onthelastepisode.com

ON THE LAST EPISODE

www.onthelastepisode.com

C - When he was inside the cave with the creatures of the woods and... they... the cave had all the magic, the same magic from the Wall but the White Walkers could get in because he had the mark. So, it's not impossible! To be... like for this theory to be correct.

J - No, I agree with you. For me, it's very plausible, actually.

C - yeah! It is, it makes sense.

J - It makes all sense. Exactly! Because..

C - It's like something in Game of Thrones that makes sense!

J - yeah, some things do! Some theories actually really do make sense. So, I guess this will be one of the confirmed theories that Bran is going to be responsible at least for that! I mean, he was responsible for Hodor dying and now he will be responsible for the White Walkers crossing... the Wall to the other side.

C - yeah, and it's not like: oh, he's responsible, he chose that. Like some things... sometimes bad things happen and because of his power of going back in time and warging and all this stuff ... this kind of stuff happened. Like, Hodor die, or the mark..

J - It's not like he's a bad person..

C - No! he wasn't looking for it. But, but... big power comes with big responsibility.

J - yes, he's quite powerful right now.

C - So, yeah. And while he was doing all the research. Kind of research, right? Going back to the past and stuff... with the 3 eyed raven ... he wasn't as cautious as he should have been. As the 3 eyed raven warned him to be. But he was like. Oh, at that time when he called like, Dad! And Ned, he..

J - And we have the feeling... exactly!

C - yeah like. You cannot change... The 3 eyed raven said that you cannot change what is done. You cannot change the past so...

J - he has to accept it. They're all dead! It's sad but true!

C - Yeah, I've always expected that. They wouldn't be dead! But...

J - We can always hope!

C - yeah..

J - Ned well yeah... some changed from the books to the ... to the series, right? Because, I mean, at least in the books the mum, she is still alive, sort of. She became Lady Stoneheart. So, she's not really Kathelyn anymore. But yeah, in the series she's not. So.. Cause I mean in the... it's like really the wall divides the world of magic and the world without magic.

podcast@onthelastepisode.com

ON THE LAST EPISODE

www.onthelastepisode.com

Something like that. So... because in the other side you really have all those... things that usually would not exist. Like: giants, and... and...

C – even the children of the woods.

J – Exactly. So, everything that has some sort of magic or that is not just plain human is from the other side. Or was, until now. But now, winter is finally here.

C – yes.. after 6 seasons..

J – The Starks are finally right! Winter is not coming anymore, it's here! But the thing is. They did not have an autumn, have you noticed? Just went from summer to winter...

C – Yeah just like summer to winter... Yeah. I've read something like this. It's always been like this actually. Like, they had many years of summer then many years of winter and now it was summer again! And now winter. It was summer for many years and now winter is here.

J – Exactly. And usually a long summer means a very long winter. Not a good time to have White Walkers walking around.

C – No, terrible timing!

J – Well, perfect timing for them!

C – The winter came ... terrible timing!

J – Yes, I am actually looking forward to see Jon fighting the ... I always forget his name. What's his name? Nights King?

C – ah, the Night King.

J – Night King. That is a fight that will be worth watching.

C – yeah, that would be like major scene!

J – because I must say, I was a little bit disappointed by the Battle of Bastards. I expected more.

C – Yeah, from that one that Jon fought with the... wildlings right?

J – That one for me, was way better! But... so yeah, I guess we will have to see if that's gonna happen is season 7 or 8... or maybe it's Daenerys who's gonna fight the guy.

C – Yeah. I think maybe together.

J – Yeah, could be too! Could be too. And so, we were also talking about Littlefinger and his whole role I game of Thrones.

C – O yeah. For me, he's the master of the game.

J – Like he's pulling the strings and we don't even realize it's happening.

podcast@onthelastepisode.com

ON THE LAST EPISODE

www.onthelastepisode.com

C – Realize... yeah. No, cause he's ... he sees everything and he's everywhere. Like, I wouldn't guess that he would just come and save the day at the Battle of the Bastards...

J – Yeah. Maybe he hopped that when he did that Sansa would be so happy and glad she would then marry him and they would reign the north together...

C – yeah, but still. Like, even though he might have done this to get Sansa's attention, it was still him. It was Littlefinger. And even when he was in King's Landing he was pulling all the strings and since the beginning with Ned's death, like everything has a touch from Littlefinger.

J – All the big events, yes. They do. I mean, his finger and Varis' finger.

C – Yeah! Yes, very..

J – right? Because for me, also. Varys keep saying: Oh, I just want what is best for the realm. But I don't know. I think there is something behind also for him. I really think...

C – But, but what's best? What is best for everyone or what is best for him? What's best in his mind...

J – Who decides...

C – We don't know, yeah! We have no idea, so...

J – No, but I guess this is one of the perks and this of Game of Thrones.

C – We can, yeah...

J – We are never sure about anything.

C – Yeah! Even though he had, he had done like some really good things, for Daenerys especially. Like we never know if if we can be certain of his loyalty. You know...

J – Exactly. Because, really. I don't trust him.

C – Me neither

J – Even now I don't trust him.

C – that's for sure!

J – Because, I mean. We don't know! Like you said, where ... where does his loyalty lie? Because, is it money? Is it power or is it because he really always just was for the Targaryens. Because there is also that one theory that he actually, well in the book, he saved Aegon Targaryen.

C – O yeah..

J – He is the one responsible for Aegon surviving. So, it could be that his loyalty actually always stayed with the Targaryens.

ON THE LAST EPISODE

www.onthelastepisode.com

C – Yeah, but that leads to power. So he is power driven. That, for me, is worse than money driven. Because, power is very abstract. So, what is power for him? Money you have a number, but power... it's harder to deal with.

J – Yes, and that's why him and Little Finger, they are such dangerous characters, I guess.

C – Yeah. For me, they are the most dangerous in this series. You never know what to expect. Cause you don't... some ... most characters, you know to which side they tend to. Like all characters, they are not all bad and all good. But you know like, you can expect things from them. But this 2, I don't know... very unpredictable.

J – Extremely. So... but well, so far at least, Varys seems to be at least in Daenerys's side. So we will see. Littlefinger, he really just changes sides like he changes clothes. Because he just tries to be on the winning side. Doesn't matter how, but he has to be on the winning side.

C – We'll see now in season 7, yeah...

J – We will! Yeah. Boy, but still, 7 months to go, it's long!!

C – It's crazy long! It's like, why are you doing this?

J – Yes, but at least all the spoilers that are coming, they are keeping me some... somewhat happy if you want, because then I can just...

C – They warm your heart!

J – Exactly! And some of those pictures and the spoilers I saw, they don't make any sense. But I guess they will make sense when the season starts..

C – yeah, always!

J – But yeah! That's also why now I'm reading all those extra books and trying to figure out the story behind it. But yeah, no. The world George Martin created is just amazing!

C – It's incredible! What a mind!

J – It is! Creating the Dothraki language, and things like this... it's just wow!

C – It's crazy stuff! Like, he created this whole language and the continents, the cities, and the families, and all this rivalry, the power, everything. It's amazing!

J – But I guess book 6 is taking him such a long time to write. It's ... so I guess maybe it's not as easy anymore or maybe he's just trying to make it even better. I don't know what's going on but...

C – It's a bit mad! He didn't launch the bef... like together with the series or at least until now. Cause it's almost season 7. Like, this year ...

J – I mean ... I read somewhere...

ON THE LAST EPISODE

www.onthelastepisode.com

C – Maybe they will release the 2, 6 and 7 together.

J – Yeah, in the end, maybe. So we don't get too sad when it's all over. But, but I don't know. I read somewhere that this year he really is going to try and focus and finally finish the book but I don't know. I'm not counting on it.

C – Fingers crossed!

J – Yeah.. I don't think it's gonna work but OK. well, one day he will release those books. So...

C – The fans of the books waited like 10 years for the series. So... like, we can wait!

J – It's hard but we can. Yes. OK Camila, very good! Thank you so, so much!

C – No problem! It's always a pleasure discussing Game of Thrones!

J – Yes, it is! So I guess I know who to call next time I want to discuss other things Game of Thrones related!

C – Yes, of course!

J – Very, very good! So, thank you again and it was a really big big pleasure having you here. Ok so, thank you and bye bye!

C – Bye! Thank you!
